(¹¹) On 23rd June 2015 the Master Definitions and Construction Agreement definitions of 'Calculation Date' and 'Calculation Period' were amended. The 'Calculation Date' was amended from the third London Business Day prior to each LLP Payment Date to the first London Business Day.

The Calculation Period was amended to the period from (and including) the first calendar day of each calendar month to (but excluding) the first calendar day of the next following calendar month.

<sup>12</sup> There are no minimum rating requirements on the issuer, although its ratings are linked to certain programme triggers - see the Programme Triggers section.

<sup>13</sup> The interest rate swap notional is the sum of all interest rate swap notionals as at the start of the Calculation Period. Note that under an Amendment Agreement dated 24 December 2012, the interest rate swaps

may be consolidated into one "cover pool swap" at a future date, at the LLP's election.

(4) LLP receive/pay margins are an average across all interest rate swaps

(5) For triggers relating to the swap providers on the cover pool the rating trigger disclosed is the next trigger point - there may be subsequent triggers and these are detailed in the relevant swap agreement. For triggers

The frages resum to the swap providers on the cover poor the rating trager accesses in the new ranger point – times may be subsequent tragers and these are detailed in the relevant swap parliement. For tragers relating to the overered bond swaps, see table "Programmer Tragers".

167 As part of the ring-fence planning, we have commenced the realignment of the wholesale funding structure of our operating companies, Santander UK pic and Abbey National Treasury Services ptc (ANTS).

168 As a consequence, as of 1st June 16, Santander UK [bp will become the issuer in respect of the outstanding notes which were issued by ANTS under its wholesale funding programmes and some standalone securities. Please see additional information published in Santander UK Investor Update Q1 2016 Results

169 Associated to the swap of the standard of the swap of the swap

and the RNS published on the 27th of April 2016 <a href="http://www.londonstockexchange.com/exchange/news/market-news/market-news-detail/84LC/12793766.html">http://www.londonstockexchange.com/exchange/news/market-news/market-news-detail/84LC/12793766.html</a>

As of 30th of March 2016, Abbey National Treasury Services transferred all the rights, duties and obliqations as the provider of the Swap on the Cover Pool to Santander UK plc

Abbey National Treasury Services will still act as Covered Bond Swap Provider to the LLP to hedge certain interest rate, currency and/other risks in respects of amounts received by the LLP under the loans in the portfolio and any relevant Interest Rate Swaps. Currently Abbey National Treasury acts as a Covered Bond Swap provider for the whole programme (except for Series 3, 59, 60 and 61 which are all, or partially, externally hedged)

<sup>(25)</sup> Sessoning is the age of the loan at the report date in months based on the main mortgage completion date. Main mortgage completion date means the date the borrower first took out a loan on the secured property. The initial loan may have been repaid and replaced by subsequent lending under the same mortgage.

<sup>(28)</sup> Santander UK is the Cash Manager for the Covered Bond Programme

Non-Rating	Trigger

Event	Description of Trigger	Consequence if Trigger Breached
Issuer Event of Default	Any of the conditions, events or acts provided in Condition 9.1 of the Prospectus —Issuer Events of default	Covered Bonds will become immediately due and payable against the Issuer and a Notice to Pay will be served on the LLP. Subsequent recoveries from the Issuer are held by the LLP as security and the LLP will then be require to make payments of Guaranteed Amounts in accordance with the original payments schedule.
Interest Rate Shortfall test	The amount of income that the LLP expects to receive in the next LLP Payment Period is insufficient to cover the would be amounts due under the Intercompany Loan and to the Covered Bond Swap Provider(s) and other senior expenses ranking in priority thereto.	Standard variable rate and other discretionary rates and/or margins will be increased.
Asset Coverage Test	On a Calculation Date, the Adjusted Aggregate Loan Amount is less than the Principal Amoun Outstanding of Covered Bonds	Breach of Asset Coverage Test not remedied on the next Calculation Date will result in the issuance of a Asset Coverage breach notice and if not rectified by the 3rd calculation date after the issuance of the breach notice an Issuer Event of Default will occur.
LLP Event of Default	Any of the conditions, events or acts provided in Condition 9.2 of the Prospectus—LLP Events of default.	Covered Bonds will become immediately due and payable against the LLP. Security becomes enforceable.
Yield Shortfall Test	Following an Issuer Event of Default, the Loans must yield LIBOR plus 0.15%.	Standard variable rate and other discretionary rates and/or margins will be increased.
Amortisation Test	Following a Notice to Pay, the Amortisation Test Aggregate Loan Amount will be in an amount at least equal to the Sterling Equivalent of the aggregate Principal Amount Outstanding of the Covered Roads	

#### Glossary

Glossary:	
	For the purposes of the Asset Coverage Test, arrears are calculated in accordance with standard market practice in the UK. A mortgage is identified as being in arrears when, on any due date, the overdue amounts which were due on previous due dates equal, in the aggregate, one or more full monthly payments, in making an arrears determination, the servicer calculates as of the date of determination the difference between the sum of all payments that were due and payable by a borrower on any due date up to that date of determination the difference (if any) by the amount of the required current morthly payments calculatey made by that borrower up to that date of determination. If the result arrived at by dividing that difference (if any) by the amount of the required current morthly payments determed to be in arrears. Areas classification is determined based on the number of equivalent full current morthly payments that have been missed. A borrower that has missed payments that in the aggregate equal or exceeded 12 morthly payments (but for which the aggregate of missed payments) would be classified as being 2 to <3 months in arrears, and so on. An account is treated as being in default if it is 3 or more months in arrears.  For the purposes of investor Reporting, if unpaid at the end of the reporting period, the due amounts which were due on the latest due date are included in the aggregate.
	in relation to any Loan at any date (the current balance determination date), the aggregate at such date (but avoiding double counting) of: (i) Further Advances and/or Pleable Loan Drawings; (iii) Capitalised Expenses: (iv) Capitalised Expenses: (iv) Capitalised Interest: and (iv) all expenses, charges, fees, premium or payment due and owing by the Borrower which have not yet been capitalised, (in each case relating to such Loan Insert and the aggregate at such date of the Amount balance in respect of each Loan comprised in the relevant Mortgage Account at the amount balance determination date, the aggregate at such date of the Amount balance in respect of each Loan comprised in the relevant Mortgage Account
Default	Default is defined as a property having been taken into possession.
